Hi,

Dean and I just touched base about these permits. I'll be addressing any that fall within the sediment impaired streams but you don't need to worry about doing WLAs for them in the context of nutrient TMDLs.

Subject: ICIS stormwater permits

ICIS – as of March 19, 2012	LGTPA, Total Within Bozeman City Limits	
MTR00 – industrial activity stormwater	5	2
MTR10 – construction activity stormwater	59	21
TOTAL	64	23

The query was limited to only those permits that fell within the boundaries of the Bozeman City Limits. There are likely a few that drain into the city limits.

Wanted to provide some information regarding stormwater permits and how we may need to address them.

Christian
